#### Suitable for

All skin types and polluted skins.

#### Active ingredients

Japanese Charcoal, Matcha Tea Powder and Clay .

#### Product Benefits

Reveals instantly smoother, radiant skin, refines pores and absorbs excess oil.

Follow us on twitter @monushop to keep on top of what we're up to and like our MONU Skincare – TRADE Facebook page!

## MONU EXFOLIATING ENZYME GEL

An active gel-based exfoliator!

### Suitable for

Normal/combination/dry skins as well as problematic.

### Active ingredients

Lactic Acid, Fruit Mix and Papain.

### Product Benefits

Reveals instantly smoother skin, removes dulling dead skin cells and encourages cell renewal, diminishes appearance of fine lines for a clear complexion.

## MONU MICELLAR WATER

A lightweight, cleansing water!

### Suitable for

Everyone! Particularly those of us that are slightly lazy with our skin care and want a quick and easy way to remove make up and cleanse the skin!

### Active ingredients

Biolin, Sea Salt, Sepitonic and Fucogel.

### Product Benefits

Removes make up effectively (even eye make-up) and reveals cleansed, soft skin.

## PRODUCT NEWS

## MONU CHRISTMAS Launching 1st October

Keep an eye out for the launch of MONU Christmas... New gifts, new marketing material, gift wrap, and we are particularly excited to introduce the first ever MONU Beauty Advent Calendar.

### Just a reminder!

Samples are now included within a retail boxed item. Further samples can be purchased for 55p per sachet.

### Training

Keep an eye out for our Refresher Training Courses... A new addition to our training schedule, these courses are designed for therapists who have completed a full MONU Essential Course but feel they need to recap on their knowledge, but don't need a full two-day course.

### MONU at Le Manoir Aux Quat' Saison

We are so excited that MONU are now on the treatment menu at Belmond Le Manoir Hotel in Oxfordshire. MONU trained therapists are now carrying out a selection of MONU facials and Body Treatments in the comfort of the guest's luxury hotel rooms.

**We have recently launched new websites** for our trade and retail customers to make ordering online and exploring MONU a lot easier. If you haven't already done so you will need to re set your password on the website to be able to log in and place orders.

### Did you Know?...

The skin makes new collagen whilst you sleep. Not getting enough sleep can lead to twice as many wrinkles!

# Night Time Skincare The Facts

At night your skin is in 'Recovery Mode'.

The regeneration and renewal process can be up to 3 times faster than during the day.

Melatonin is a sleep hormone which enhances the feeling of tiredness and increases the skin's ability to repair itself.

Melatonin also creates sleepiness as well as working to counteract damage to skin during the day from environmental damage like UV rays and pollution.

During the night the skin temperature rises meaning it becomes receptive to products that are applied to the skin.

As cell regeneration is higher during night make sure you apply products containing powerful active ingredients.

## Goodbye

At the end of July, we said goodbye to Hannah, our Head of Education. Hannah has been with MONU since 2012 and has played a huge part in the development of MONU Skincare products and treatments. We will miss her lots and wish her all the best in her new role as a UK trainer within the skincare industry.

## MONU Baby

We are so excited to announce that Becky is expecting a baby... arriving in February 2019! We are so pleased for Becky and her family and can't wait to share baby pictures when he or she arrives.

## Get to know... Our Factory Team!

We thought you'd love to know who makes, packs and sends your products... you can read all about these lovely people below....

### Tracy and Fi, Packing Team

Tracy and Fi make sure all the products you order are packed and sent out on time whether it's a small retail order or a big trade order! Fi has been with us for 31 years and Trace, 16!

### Paul and Paul, Chemists

It's confusing for us too!! The two Pauls are our chemists, and between them make all the products, from cleanser to tan! If you ever come along to our Cheltenham training venue you may get the chance to have a factory tour where you can see how they make the products and the different stages, our product goes through.

### Sophie, Jane, Derek, Teresa and Jules, Factory Team

The labels you see on the products have been applied by hand in our factory... we love that our MONU products are so personal. The filling of the product and labelling of the bottles are all done by our team! Even the batch codes are applied individually!

“Beautiful skin requires commitment, not a miracle”
