2019 Rose Hill Gardens Plant Listing

Miniature conifer -Dark green needles which lie flat on the stems and have attractive, brown buds at the branch tips
compact,long blooming with hot pink red flowers that do not fade to brown - holds its shape and some re-bloom

Japanese maple producing fantastic pale orange-yellow spring foliage which gradually fades to green

The only upright laceleaf **Japanese Maple**, this one is small in stature and has delicate foliage

Upright spikes of lavender-blue flowers - strong stems do not require staking -dark green glossy foliage -plant is toxic

Valuable shade loving perennial to 4', very dark astilbe-like foliage, pinkish-white fragrant bloom in September

Dazzles the garden with a kaleidoscope of pinks, oranges and greens. Pale yellow flowers in summer. Ht 6-12" **Z9**

Succulent -green leaves are very thick and succulent - forms an attractive rosette - grows 6 to 12" - **Zone 9**

Succulent- Nearly black foliage on this tender succulent which can grow to 4' at maturity

A very crinkled, dark-leafed ajuga for groundcover applications - blue flowers early in the season

Very diminutive narrow leaves on a short plant producing tiny white flowers in mid-summer

This extraordinary allium is a must have for all rock gardens!. Its white to pale pink blooms are 5-6" in diameter

This compact early blooming allium has very attractive foliage with pale lilac to near white golfball sized flowers

This is not only beautiful in bloom in mass but has lovely grey foliage that's attractive even when not in bloom

Twisty leaves form a low mound of grey-green foliage - purple flowers in mid-summer - hardy and attractive plant

Very hardy and reliable - purple-pink flowers in mid-summer - deer and rabbit resistant - 12 to 18" tall

Nice border or edging perennial with interesting twisted leaves - pink flowers in August - only 6" tall

Long blooming with large terminal clusters of lavender-blue flowers, glossy dark green narrow foliage.

The smallest of all Aloes. stiff, short, glaucous green leaves with distinct white markings and toothed edges.

Clusters of navy-blue buds open to large, periwinkle-blue star shaped flowers - bright green foliage - 14"

New stems emerge near black with silver veining - light periwinkle-blue flowers are quite persistent - grows 24 to 30"

Succulent- Interesting reddish-dark green succulent rosettes - great plant for throughs and container gardens

This is a large bluestem grass that changes color from deep green to a fiery red by October - Very tall 5 to 6' tall

Carmine-red flowers on top of finely cut attractive foliage - grows to 10" tall - prefers morning sun

Blooms late-spring - short compact plants that tolerate more shade - excellent woodland plant - pure white flowers

Silver leaved tiny groundcover growing to 2" tall - white flowers in summer - aka 'pussy toes' - great trough plant

Upward facing red and white flowers with small red spurs - compact mounds of blue-green foliage - early blooming

Deep blue, short-spurred flowers in May and June. Ht. 16" - readily re-seeds after bloom season

Striking gold and green marbled foliage - red flowers - hardy to zone 4 - excellent in sun or partial shade

Huge bold flowers, rich violet-purple outer petals with long colorful spurs with pure white inner petals.

Pink ball-shaped flowers bloom just above attractive green and white variegated foliage - 6" tall -hardy to zone 4

A purple foliage armeria with a profuse display of rose-pink flowers in early summer - evergreen foliage only 6" tall		
Desert moss because it is an evergreen, exceptionally short and compact groundcover. Ht. 6" - great trough plant		
Longest blooming sea pink - very compact - pink flowers in early summer - remove spent flowers for spotty re-bloom		
Diminutive form of goats beard only 8" tall - white flowers - nice border plant - tolerates sun or shade		
New introduction - deep green foliage is covered with lacy white flowers in mid-summer - part shade		
Needle-like, medium green leaves are very dissected - creamy-white feathery plumes in summer - grows to 20" tall		
A care free perennial with golden-yellow blossoms followed by green fruits filled with silvery-white silky seeds		
A virtually hassle-free perennial, offering 3 months of tangerine orange blooms. Height 24"		
Attractive dark green rust resistant foliage. Compact plants, purple flowers. Ht. 12-15" very late blooming		
Unique petite form growing to only 6" tall - Fluffy reddish-purple flower plumes - dark green crinkled leaves		
Glossy chocolate brown leaves, bright pink flowers make a stunning contrast to the foliage - 20" tall - mid-season		
Very attractive dark bronze foliage holds through the season. Contrasting pink flowers appear in mid-summer		
Unique dwarf , low mounding gold barberry has attractive red new growth and also turns red in fall - very compact		
Sterile, disease resistant barberry - very glossy - semi-evergreen foliage with deep purple color-semi-dwarf		
A beautiful tree with year round interest due to its glossy purple foliage - white exfoliating bark in winter		
Gigantic clumps carry bushel basket-sized leaves with silver-flecking. Ht. 30"		
Outstanding foliage plant - unique patterned leaves - blue flowers early summer - best in morning sun		
An improved Jack Frost with larger heart-shaped leaves and more pronounced variegation, more heat resistant		
Green and white attractive foliage with tiny blue flowers during early summer - trim back flower stalks after bloom		
Bicolor purple flowers with white edges - medium sized flowers - heavily spotted foliage - good pot cultivar		
Spectacular blood-red flowers above dark green foliage with white spotting - 18" tall - dig bulbs and store for winter		
A small evergreen shrub - hardiest of the heathers - makes a dense mat forming groundcover - zone 5		
Dense mounds of dark green foliage, produces clusters of pure white flowers, some re-bloom - 18" tall		
Compact blue bellflower excellent for the border or rock garden applications - spreads but not invasive		
Low growing clump forming perennial with profuse purple-blue flowering during mid-summer - 8 to 10" tall		
Very dense and compact- bright gold foliage- profusion of lavender blue, star shaped flowers. HT. 4"-6"		
Dense compact mounds of dark-green foliage with star shaped blue flowers arranged in clusters - 16 " tall		
One of the earliest blooming Campanula on the market with good vigor and uniformity. Ht. 5-7"		
1.5" bell shaped flowers on very compact plants - dark green foliage - blooms much earlier than the 'clip' series		
Eggplant purple, torpedo-shaped buds open to 2" lilac purple, bell-shaped blossoms at each node up the stems.		
Medium sized vibrant orange flower on top of green,bronze and pink variegated foliage - foliage is erect - tender		
Spectacular early season display of pink blooms - thornless and drought tolerant once established - no fruits		
Very compact with Hot pink flowers and shiny dark green-bronze foliage. Ht. 12-16" - late blooming		

New Release- Half the size of Hillside Black Beauty with the same purple-black foliage Ht. 2-3ft		
White flowers with a vibrant raspberry red eye bloom for months. Heat and cold tolerant. Ht. 18"		
Bright coreopsis with red on gold flowers - 12 " tall - very long bloom season - hardy to zone 4		
1.5" Rich deep-red flowers on a compact plant with deep green foliage with a rounded appearance. 15 to 18" tall		
Deep burgundy-red flowers are produced on thread-like foliage throughout the summer - compact at 10" - zone 5		
Cream flowers with dark red centers - long blooming flowers on plants that are mounded and tidy - 12 to 14" tall		
More compact and bushy form, fern-like foliage - bright golden-yellow flowers with a long bloom season, 15" tall		
A red twiggled dogwood with very distinct dark green puckered foliage - 3 to 4' tall - year round interest		
Bright yellow flowers in early summer. Very special selection. Needs excellent drainage - winter hardy if dry		
A new semi-dwarf smokebush with saturated puple-black foliage that darkens as the season progresses - 5' tall		
ZONE 5 - Gladiola type foliage with brilliant red flowers in late summer - mulch heavily for the winter		
Huge dinner plate dahlia - 10 to 12" crimson pompom blooms- pinch plants to keep them bushy - dig in fall		
Huge dinner plate dahlia - 10 to 12" light yellow flowers - pinch plants to keep them bushy - store tubers over winter		
Eye-catching dinner plate dahlia with huge deep purple 8" blossoms - strong sturdy stems - tubers must be dug		
Tender succulent - aka 'Pickle Plant' - unique bristly leaves produce small yellow flowers in summer		
Tiny, finger-like leaves grow in tight mat that is smothered with fuchsia flowers in very early spring.		
Low growing ground cover with unusual flower pattern of orange tips with a lavender center - heat tolerant, 3" ht		
A very cold hardy ice plant - blooms with white flowers in early summer - very compact plant tolerates moisture		
Genetically dwarf delphinium - light blue flowers with white centers flowes will begin to spike in June - 18 to 20"		
Similar to Blue Butterfly but flowers have a contrasting white center - tolerant of heat and humidity - 12" tall		
Rich red double flowers are held on sturdy stems above the attractive blue-green foliage - 8" tall - hardy to zone 4		
Single raspberry-pink flowers with lavender edges on compact plants - attractive grey-green foliage - very floriferous		
Tight 7" mounds of blue-gray foliage - heavy bloom during cooler weather - very bright pink flowers long blooming		
Bright salmon pink double flowers with a red center - compact 8" mounds of attractive blue-green foliage		
Stunning spring color with brilliant gold foliage and rosy-pink heart-shaped flowers. Ht. 24-30"		
Very compact blue-grey foliage carrying pinkish-red flowers through the summer		
Large sulphur-yellow heart shaped flowers on dark stems - blue-grey fern-like foliage is more blue in brighter light		
Gas plant- spikes of unique, white, aromatic flowers in June. Very slow growing. H 2', W 2' Zone 3		
Gas plant- Dark veined, pink flowers. Long lived flowers. H 30", W 24" Zone 3 - avoid skin contact when pruning		
Green cushions topped off with hot yellow flowers in early spring. Needs well drained soil. Great for troughs		
Rock garden plant - small green cushions topped with yellow flowers in early spring - well drained soil		
Sturdy foliage forms a nice clump - blue flowers form in mid-summer - grows to 1'tall - spreads 2' - unique perennial		
New Release- 3.5" intense orange flowers - dark green healthy foliage - prolific bloomer to 20" tall		

New Release- Giant two-toned flowers that have pink petals with white tips that are fluted, dk foliage to 22" tall		
Large , 4.5" attractive , vibrant tangerine-orange flowers with a dark cone - 16 to 18" tall - nice basil branching		
Large 5" golden-yellow flowers with overlapping petals and golden-yellow cones. Flowers mature to soft yellow. 18"		
Large 5" coral-pink flowers mature to lavender-pink - wide petals - dark near-black stems add interest 26 to 28"		
Large, 4" wide fluorescent orange pom-pom flowers on short , strong stems. 18 to 22" tall New Release		
Produces large green cone surrounded by lighter green gray petals, fragrant and compact. Ht. 24"		
New Release- Raspberry-pink flowers on compact and sturdy foliage - long blooming - height around 16"		
Wide overlapping petals with a nice compact habit - rich yellow flowers with a copper cone on well brached plants		
Opens tangerine-orange and matures to a stunning raspberry pink. Compact and free-branching. Ht. 18"		
Striking 3" magenta-pink flowers mature to lavender-pink on dark sturdy stems, compact green foliage. Ht. 18"		
3" coral-pink flowers with a copper colored central cone - this is a compact cultivar growing only 18 to 24" tall		
Softly fragrant, spicy orange-red blossoms with on orange-brown cone - long blooming and compact at 24" tall		
Warm, tomato-red flowers to 6" wide stunned our nursery visitors! Ht. 22"		
A very unique coneflower growing only 8" tall and 8" wide - Large bright-yellow flowers in mid summer - long bloom		
This cone flower is loaded with double white flowers - upright and clumping habit - 18" tall - blooms late summer		
Forms low growing mounds of narrow dark green leathery foliage. Russet-red flower spikes. 10-16" tall		
Succulent- rosettes of dark purplish-bronze leaves dappled with pink,apricots and near whites - zone 9 to 11		
Succulent- Red markings define the interior and edges of each leaf - pinkish-white flowers in the fall - zone 9 to 11		
Succulent- rosettes are glazed with translucent pink and purple - very popular succulent - grows to 6" - zone 9		
Bushy evergreen leaves marbled in bronze - sprays of bright lemon-yellow flowers appear in spring -groundcover		
Lilac-rose flowers blooming very early on compact 12" plants - best in semi to full shade		
New foliage has dramatic maroon coloring, mellowing to dark green by summer - flowers early spring - cream flowers		
AKA rock fleebane - mat forming herb rarely growing more than 1.5" tall - yellow flowers appear in mid-summer		
This unusual cultivar has grey-green leaves edged in creamy white - flowers are a rich violet blue - tolerant of heat		
Big rounded leaves displaying a wide, deep golden-yellow edge - very ornamental and striking - zone 5		
Exciting new perennial cultivar in high demand - very dark foliage with golden flowers in Late May		
Yellow bracts in early summer above white, pink & green foliage		
Fascinating, chunky, triangular leaves have distinctly tooth margins; yellow daisy-like flowers. Ht 3-6"		
Sport of the popular Lady Fern with very narrow and scalloped fronds - very unique - moist cool conditions		
Very similar to the 'Bradford Beauty ' fern - cross between the lady Fern and the Japanese Painted Fern		
Dark green, crinkled and crested foliage that somewhat resembles parsley. Ht. 18"		
This cultivar is an outstanding selection of the painted fern - best color in partial or bright shade - intense coloration		
Intense powder-blue that holds its color throughout the season - the best fescue currently available - 9 to 12" tall		

Compact and self branching crimson-red flowers - foliage is 10 to 12" tall - often comes back from seed		
Produces masses of large, 3" diameter, fiery orange-red blooms tipped by a ring of rich flame yellow. Ht. 8-10"		
Intense blue violet flowers on a compact durable drought resistant plant. Ht. 10"		
Low growing gentian prefers acidic, well drained soil - flowers are blue and white - nice rock garden plant		
2" tubular, true blue flowers which open at the nodes all up and down the stems. Ht. 24" - late bloom		
Low-growing mounding geranium with deeply divided foliage, lilac-pink flowers with a dark eye.		
Dark purple foliage contrasts nicely with the white flowers that are produced in mid-summer - grows 15 to 18" tall		
Double bright scarlet flowers bloom early spring on tall branching stems. Reblooming. Ht. 16-20"		
The bright apricot to tangerine orange flowers make an outstanding color statement in the garden. Ht. 30"		
The only miniature grass that shows some red color in the summer followed by all over red color in the fall -12" tall		
Attractive variegated palm sedge - has high moisture requirements but is very hardy for our area - 24" tall		
Long arching bamboo -like golden leaves with dark green margins - grows to 16" tall - best in partial or full shade		
Chartreuse-gold grass blades with a touch of burgundy at the tips - 14 to 18" tall - best in shadier locations		
Deep blue-red petals surround a maroon and yellow cone - late blooming - 24 to 30" tall		
Dramatic pink and green variegated foliage on dark red stems - bright yellow daisy-like flowers- sturdy 12" plants		
Big improvement on 'Lorraine Sunshine' - deeper yellow flowers that have more petals - more compact at 14 to 16"		
Sunny yellow flowers have golden centers - dark green leaves are mildew resistant - larger flowers than 'Tuscan Sun'		
2.5 to 3" double white flowers with burgundy speckling concentrated toward the center of the petals - 18 to 24" tall

Colorful hosta with dark green leaves and a wide bright white margin. The margin emerges yellow		
Medium green center, white margin. Blade ovate-shaped and slightly wavy and cupped. Ht. 5" W 15"		
Sport of 'Pilgrim' with wavy margins -dark green leaves with creamy margins - lavender flowers - small - 9"x15"		
Sport of 'Empress Wu' with the same size but having a wider more prominent margin - blue-green leaves - very large		
Sport of 'Striptease' that emerges with bright yellow margins and dark green centers		
Succulent -low-growing perennial succulent species more or less creeping, occasionally forming mats - Unique flrs		
Dwarf 32" tall hydrangea with large white flowers in summer - strong upright stems - early blooming hydrangea		
5' tall hydrangea with flowers that emerge white and eventually progress to a striking red color late in the season		
Tiny tidy hydrangea with abundant flower heads that flush soft pink aging to white and eventually green - 1.5 to 2'		
A new dwarf form of the ever popular 'Limelight'. Great same size flowers but at one-third the size. Ht 3-5ft		
Same early bloom as 'Quickfire' but on a plant only 1/3rd the size - flowers initially are white but quickly turn to a red		

White blooms appear in early June and turn to a rich deep pink. 6-8'		
A miniature hydrangea only 3' tall - flowers range from blue to pink - distinctive arching habit		
Many dense blooms that change from white to bright pink and then age to a dark red-pink - very strong stems - 6' tall		
Extremely floriferous, uniform mounds are covered with small white flowers in spring - 6 to 12" tall		
New broadleaf dwarf evergreen looks like a boxwood - Dense ball shaped plant - Small, dainty dark green leaves		
Very attractive mound of foliage covered with yellow daisy-like flowers in mid-summer		
Purple-splashed, willowy flowers of phenomenal color -wide, velvety petals - prefers moist conditions		
Erect, tall bearded iris which produces numerous flamingo pink flowers w/ flaring falls in late spring -35" tall		
Outstanding large purple flowers - blooms later than most bearded irid - stalks up to 38"		
Early outstanding orange blooms with a dark tangerine beard -produces 4 to 5 stems per rhizome - grows to 24" tall		
Diminutive iris with orange flowers on very low 10" plants - blooms earlier than the giant bearded iris		
Attractive yellow and green variegated foliage with darker blue flowers in June - better vigor than Iris pallida		
Attractive green and white variegated foliage - blue-purple flowers in June add to the interest - great landscape plant		
Short, grassy leaved Iris species - deep violet-blue flowers in summer - hard to find in commerce		
Very desirable pink-lavender double blooms on this siberian iris - prefers a moist soil and does well in part shade		
Upright narrow habit- golden new growth fading to bluish-green in winter - height 3 to 5' and only 2' wide		
A diminutive, flattened globose selection of creeping juniper with dense, layered foliage - slowly spreading		
Pancake' typically grows to only 2" tall but spreads over time to 24" wide. Great groundcover		
This ground hugging Juniper provides a dense mound of branches that radiate from the center.		
Foliage color is beautiful dark mint green all year round. Full sun preferred. Height 1ft		
Silvery, densely felted, fleshy leaves with brown markings on edges. Whitish flowers with light brown stripes.		
1" single pale-blue flowers on a compact mound of green all summer - loves heat and humidity - drought tolerant-18"		
Forms low clumps of narrow arching blue-green foliage, multiple stems of coral-red and yellow pokers.		
Unusual mounding habit -silver veined green leaves -prefers some afternoon shade - yellow flowers in early summer		
Spreading patch of small silver leaves with a wide green edge - purple flowers early summer - tolerant of dry shade		
It's short spikes packed with aromatic, deep blue florets. Blooming June to September. Ht. 12"		
Forms a low mound with large, double white flowers with fringed petal tips. Flowers are light yellow		
Pure white double, fringed flowers on compact plants - large flowers - will grow 12" to 14" tall		
Medium height, large double cream to lemon flowers with fancy fringed petals with deep golden centers - 22"		
Unlike other Lewisia , performs well in containers and in the garden. -great rebloom ability -dry in winter		
Glorious shades of soft and vivid pinks, rose, salmon, white, yellow, orange, soft purple and lovely bicolor pattern		
A solid colored reddish-pink lewisia - repeat bloom cycles during the summer - may overwinter if the soil remains dry		

Good choice for mid-summer color - 24" flowers are purple - very hardy & easy		
Upright stems, clothed in whorls of fresh green narrow leaves, topped by white fluffy flowers		
Proven Winners Cultivar - a very compact habit - thick serrated green leaves with yellow flower spikes on dk stems		
Huge 16" diameter dark leaves - best in morning sun - greener leaves in full shade - golden orange flowers - 3 to 4' tall		
Beautiful rose-pink blooms with a generous splash of deep purple at the center and following up the edges. 16"		
Beautiful rosy-pink flowers adorned with a stunning array of deep burgundy-rose freckles		
Huge clear yellow with a lighter yellow tips. Very fragrant. Ht. 36-42"		
Red-pink to dark pink, large 8" flowers with golden-yellow, star-shaped centers - 10 flowers per stem		
Outstanding OT lily - red pink centers with a white edge - very sturdy - strong but sweet fragrance over 3' tall		
Upward-facing lily resplendent in orange and plum. Its striking color presents a shiny, near-black look		
Big, bold, beautiful blooms in a peachy yellow are tipped with vibrant raspberry - Asiatic - up to 48" tall		
The large-flowered 'Ladylike' has upward-facing pink flowers with broad golden centers.		
Tomato red blooms with a heavy mass of black speckles concentrated on the inner half of the petals. 3'		
Fragrant, large deep pink flowers edged with a thin line of white - fragrant - only 18" tall		
Vigorous bulb perennial with whorled leaves and racemes of pure white turkscap flowers. Ht. 2'

Dark red-mahogany flowers carry their color in the spots that peak through the orange of the flower centers.		
Pendant, pink Turk's Cap flowers with butter-ivory brush marks overlaid with smooth plum-garnet mark		
Produces bountiful pinkish-red blossoms, brushed creamy yellow at their center		
4' tall stalk adorned with up to 30 out-facing, 2.5" wide, lightly fragrant, bright orange flowers.		
Light pink pedulant flowers appear in June - prefers afternoon shade - clumps form after several seasons		
4' tall spikes of pendant orange-red flowers highlighted with a bright yellow eye-zone and small cinnamon spots		
Hybrid with its racemes elegantly covered with bountiful golden-orange blossoms-dark spots		
A seldom offered lily - speckled yellow flowers with orange spots - up to 20 flowers per stalk - best in morning sun		
Compact lily growing to 18" tall - fiery red with orange brush marks - good bud count		
Attractive OT lily with white petals and a rosy-pink center - can grow to 4' tall - nice fragrance		
Short Asiatic lily for the border - 16" tall - purple center with white tips - very attractive		
Tall Asiatic lily up to 45" - very dark center with pink tips - striking color combination		
Orienpet lily producing very fragrant, golden yellow flowers on sturdy stems standing up to 5' tall		
White with burgundy brush marks, spectacular color contrast. Ht. 16-18"		
Stunning color combination. Huge trumpet- like white flowers with almost maroon centers. Ht 60"		

Fragrant, long lasting, pure white flowers with a greenish-yellow midrib-It flowers in mid to late summer		
Attractive bicolor rose-red flowers on very compact border plants. 12 to 14" tall - early bloom season		
Large, upfacing double orange flowers. This dwarf perennial grows 14 inches tall and prefers full sun		
A dramatic color combination with dark burgundy flower centers and creamy yellow tips - 5 to 7 flowers per stem -14"		
Bold burgundy trumpet-shaped flowers with plum purple throats at the ends of the stems in summer		
Stunning burnt orange flowers with dark maroon centers on compact 14 to 16" stems.		
Huge 8" upward facing double yellow blooms, glossy green leaves - produces 2 to 3 flowers per stem - fragrant - 48"		
Large, upright, showy pink buds that open to large pink flowers with white centers. It is very fragrant- 40" tall		
Giant plum-purple flowers that are upward facing - 3 to 4 flowers per stem - fragrant - 44 to 48 inches tall		
Dwarf golden flax - masses of bright golden flowers over lime-green foliage - 8"tall - 8" wide - hardy to zone 5		
Blue flax - dwarf plants with finely dissected foliage - 10" tall - 12" wide - hardy to zone 5		
Burgundy foliage with vivid scarlet flowers, excellent basal branching forms dense clumps with an upright habit - 24"		
Dwarf 8" bronze foliage - intense bright orange flowers - long bloom season - slow to emerge in spring		
Vigorous but not invasive monarda for the center of the border - mildew resistance - cherry red flowers - 20" tall		
Same characteristics as 'Cherry Pop' but with vibrant magenta flowers - long bloom season - 20 to 24" tall		
Proven Winner - Compact bee balm with dark cherry pink flowers blooming during the heat of summer. 16"		
Featuring dark-purple flowers blooming throughout the spring and colorful, leathery and jagged-edged		
A small scale, early blooming nepeta - ball-shaped foliage is covered with long dark flower stems & blue flowers		
Tidy compact catmint - smallest form on the market - very long blooming - blue aromatic flowers - 18 to 20" tall		
Crown of deep-green and golden foliage - showy bright yellow blooms during the summer months - ht is 10"-18"wide		
Shrubby evergreen groundcover which grows 8 to 12" high - spreads by rhizomes - green glossy leaves -white flowers		
Dwarf strain with swordlike foliage produces 1 1/2 flowers in rich hues of yellow, orange, red, pink&lavender		
Bright red flowers with attractive black stamens - this cultivar is compact and non-sprawling - Cut back when yellow		
Ruffled rose-pink frilly blooms with a very dark center - Flowers are held upright on strong stems - Height is 30"		
Large pure white flowers in late spring - centers are an attractive purple-black - 30" tall - cut back yellowing foliage		
Incredible dark eggplant purple foliage - lilac purple flowers with white flaring tubes - stays strictly upright all season		
Abundance of huge, white tipped, coral-red flowers - 22" tall - drought tolerant perennial		
One of the earliest hybrid peonies to bloom - crimson single flowers are produced on attractive fern-like foliage		
Spectacular cross of a herbaceous and tree peony - incredible large yellow flowers on sturdy stems - specimen plant		
Tree peony - Huge double pink flowers - grows to 4' tall - hardy to zone 4		
Tree peony - Huge yellow flowers - grows to 4' tall - hardy to zone 4		
Tree Peony - Large double red flowers - woody shrub to 4' tall - hardy to zone 4		

Developes into a large woody shrub that needs no support - this cultivar is a very dark maroon - eventual height is 4'		
Early, huge double red, bomb type flowers have heavily ruffled centers - strong stems but staking is recommended		
Large woody stems produce very large white flowers - no support is necessary due to the strong woody stems - 4'		
Very popular with dense fern like foliage - double deep-red cup shaped flowers -early blooming - may go dormant		
Developes into a large woody shrub that needs no support - this cultivar has huge double purple flowers - 4' tall		
Developes into a large woody shrub that needs no support - this cultivar has huge showy white flowers - height is 4'		
This is the famous and highly ornamental Japanese fern leaf peony - very fine foliage with double red blooms in May		
Shrub-like perennial with irregular growth habit - grey-green foliage produces lavender blue flowers in summer -24"		
Compact phlox measuring 10"x10" - bicolored pink and white flowers - long bloom season - can be grown in pots		
Dark blue buds open to blue & white pin wheeled flowers, strong stems with excellent branching. Ht. 16"		
Bubblegum pink blossoms are accentuated by dark pink eyes - this cultivar is very mildew resistant - 18"x 18"		
Coral star-shaped flowers with white highlites - grass-green foliage - plants are 18 to 24" tall - fragrant blooms		
Fragrant, pure white blooms. Green foliage, extremely mildew resistant. Drought tolerant. Ht. 26"		
Moss-like foliage with masses of pink flowers appearing early in the season -colorful ground cover - only 6" tall		
30" tall -mildew resistant - lavender purple flowers with a white star center - strong stems		
New Introduction - Same characteristics as above but with intense red flowers		
Moss-like foliage with bright pink flowers having a reddish center - early season bloomer - grows only 6" tall		
Miniature conifer - Diminutive form of Norway Spruce growing only 2 -4 inches per year - very hardy - 2'High x 3' Wide		
Miniature conifer - Superior alternative to the dwarf alberta spruce - excellent for rock gardens - grows 2-4"/year		
Miniature conifer - Extremely tiny needles - grows only 1"/year - excellent plant for troughs or railroad gardens		
Miniature conifer - dwarf spruce with a gumdrop shape when young - grows 2"/year - 1.5'x 1.5' at maturity		
Miniature conifer - very small and slow growing alberta spruce - grows 2 to 4" per year - 3' high x 1' wide at maturity		
Miniature conifer - popular selection of Japanese White Pine - weeping habit - hardy to zone 5		
Interesting balloon-like buds burst open into light pink beautiful bell-shaped flowers. Ht. 8-10"		
Compact white-flowering form of the common balloon flower - only 8" tall - very late to break dormancy		
Long-lived and trouble free cultivar - interesting balloon-like buds open to blue dwarf shaped flowers - only 6" tall		
It's variegated green and creamy-white leaves look for all the world like some exotic fern. Ht.18"		
Slow clumping woodland plant with showy variegated foliage and white flowers in early summer		
Succulent - Very showy green and white rounded leaves aona dark colored fleshy stalk arching outward - zone 9		
Forms compact mounds of oak leaf-shaped foliage, vibrant pink flowers bloom on terminal clusters. Ht. 8-12"
