

Objective

1. To ensure that set up work is reviewed on a timely basis by an authorised person and checked and verified for proper consistency with the approved setting card and properly undertaken.
2. To ensure that all setting work is undertaken to the required standard and we manufacture mouldings to the desired quality standard each and every time we set or run a moulding.
3. That we maintain a proper record of verification activity on a timely basis
4. We confirm or otherwise the quality of setting and the extent to which it conforms with the Company's standards. Enabling monitoring of the quality of setting to identify ways to maintain or improve standards and quality.
