

# FC 010 Drawings

**Objectives:**

To ensure all drawing specifications are properly and accurately produced to the required standard.

To ensure each drawing specification accurately reflects the requirements of the client and properly considers all aspects of the product's design and functionality.

To ensure the product design will maximise moulding efficiency, productivity and product quality requirements commensurate with the required quality standards taking into account all relevant costs likely to be incurred over the expected life of the tooling and product so as to minimise the overall total cost of the project.

To ensure we properly control and maintain records on the PDMS for all
