

FC 005 Tooling Orders

Objective

To ensure that all orders for tooling are properly reviewed to confirm consistency with the quote, the relevant specification and the Company's capability to perform the order and that all discrepancies are properly resolved and agreed on a timely basis.

To ensure that all revisions are properly recorded and that an order acknowledgement is accurately and properly produced and sent to the customer on a timely basis.

To ensure that we properly manage the credit exposure associated with tooling sales.
