

IMAGES RECORDED AT THE END OF STAGE 2

Analysis of images of the Conservation Area on discs:

Extended High Street	233 (230)
Cider Mill Lane loop	47 (20)
Sheep Street/Westington loop	42 (22)
Park Road	26 (19)
Back Ends loop	35 (11)
Old Campden House site	16 (7)
The Craves and the Guild site	7 (7)
The Mills & others on private land	17 (17)
Totals	
(90 more than at end of Stage 1)	423 (333)

We also have shots of Campden House (7), of Norman Chapel (6) and of Broad Campden (6). *That is 442 in all rather more than the 427 predicted in November 2003.*

We already have 110 (110) A4 prints of street views and properties on the extended High Street and some 75 (43) other prints. *That is 185 now and a few more are needed within the predicted total of 200.*

AERIAL OBLIQUE IMAGES

We had 8 good Commission Air prints from 2001 and 2002 before the project was launched. We have added 42 slides. *That is 50 aerial images so far and we hope to add images of the approaches to end up with about 62 aerial views, all on discs, in the collection.*

Dear Avril

8th April 2005

Aerial Photography

The 12 views of the "approaches to Campden" that I was authorised to commission came 10 days ago.

I enclose a listing of the Commission Air photographs we have and I continue to hold the 20 prints now separately protected and numbered as shown.

I also enclose for your safe keeping the disk/CD with the last 12 images on it. (Nos 2 - 13 on the list) as received from the supplier and with the certificate of full copyright ownership. I have passed the invoice for payment to James Bell to complete the transaction.

Jim has already put the earlier 8 images onto the discs record and you will want to talk to him about consolidating the series.

As regards the steeper and closer oblique views of the Conservation Area that Jim took (39/42 in all) I will produce a similar order and listing shortly. Jim has all these on the disc record and I hold the slides at least until presentation on 25th June.

Good meeting last night, well done all.

Yours aye
David
