

PC (Polycarbonate)แผ่นโพลีคาร์บอเนต

Most impact resistance among all transparent plastic. When comparing to glass, it is 200 times stronger, while weighting only half.

Format: Sheet

- Very high impact strength even at low temperatures
- Very high dimensional stability
- Good electrical insulation properties
- Broad working temperature
- Suitable for food contact
- About 90% light transmission
- Can be bonded and welded

Applications: security glazing for high traffic and high impact areas, police shield, machine cover/guard
