PEEK

A(Polyetheretherketone) an advanced semi-crystalline thermoplastic with many excellent properties.

Format: Sheet and Rod

- Long term service temperature up to +260°C
- Very good impact strength (even at low temperature)
- Very High mechanical fatigue strength
- Very high thermal and dimension stability
- Good sliding and wear properties
- Very good chemical resistance

Application: Bearing, sheels, piston rings, value seats, gear rack, seals, wafer carriers, pump vanes, fittings
