

## Devon Association for Renewable Energy The DARE Community Renewables Service

DARE is a Devon-based social enterprise with many years experience advising on renewables and energy efficiency.

DARE is completely independent & impartial and is not partnered with any commercial installers or energy supply companies.

*Independent, Impartial  
and Expert Energy Advice*

### Helping your community to:

- **Generate renewable heat and power**
- **Reduce energy bills**
- **Generate money for local people**
- **Set up a community grants fund**

**DARE's new Community Renewables Service covers every aspect of setting up and running your community energy company including:**

- **Applying for Rural Community Energy Fund grants**
- **Mapping your community's renewable opportunities**
- **Completing feasibility studies**
- **Securing support from local people and councils**
- **Setting up your community energy company**
- **Launching a community share issue**

There are grants available up to £20,000. Projects might cost from £100,000 to £10 million or more.
