

(Senior) Research Associate Screening, Confo Therapeutics N.V.

Confo Therapeutics, a spin-off of VIB and VUB, is a drug discovery company built around a disruptive technology which enables it to address 'undruggable' GPCRs. The company is building a portfolio of transformative medicines in various disease areas. Confo Therapeutics is currently located on the Etterbeek campus of the Vrije Universiteit Brussel and on the Technology Park in Zwijnaarde/Ghent. More information about Confo's technology and strategy can be found on www.confotherapeutics.com.

For the expansion of our drug discovery team in Ghent we are currently looking for a (m/f):

(Senior) Research Associate Screening

Job description:

- Run daily screening and compound profiling projects
- Support our research projects with cell culture expertise
- Provide high-quality data on time and document results within electronic lab notebook
- Perform data analysis and create reports using established software tools and systems
- Present data to line management or project team
- Handle multiple projects in parallel

Your profile:

- Applicant should hold a Bsc/Msc in Life Sciences and at least 3 year experience in a related field in a biotech environment
- Proficiency in cell biology, cell culture, in vitro technique (ELISA assays, biochemistry assays)
- Knowledge in Assay Development and/or HTS of cellular assays would be an advantage
- Good organizational skills
- Ability to follow a strict methodology, to work with different techniques at the same time
- Computer skills including MS office programs, GraphPad Prism (ideally)
- Proficiency in English required
- Excellent team spirit and communication skills

Our offer:

- A competitive compensation package with extensive benefits
- An entrepreneurial and stimulating working environment in a growing and ambitious biotech company
- Excellent career development opportunity, with exposure to all aspects of R&D in the company
