# **APPRAISAL OF**

# LOCATED AT:

20318 Fleetwood Dr Harper Woods, MI 48225-1642

# FOR:

Colony American Finance 4 Park Plaza, Suite 1950 Irvine, CA 92614

# **BORROWER:**

Rudalev MI I

AS OF:

June 15, 2017

BY:

Ronald Rahal

appraisal nation Appraisal Nation Colony American Finance 4 Park Plaza, Suite 1950 Irvine, CA 92614

File Number: 20318fleet

In accordance with your request, I have appraised the real property at:

20318 Fleetwood Dr Harper Woods, MI 48225-1642

The purpose of this appraisal is to develop an opinion of the market value of the subject property, as improved. The property rights appraised are the fee simple interest in the site and improvements.

In my opinion, the market value of the property as of June 15, 2017

is:

\$67,000 Sixty-Seven Thousand Dollars

The attached report contains the description, analysis and supportive data for the conclusions, final opinion of value, descriptive photographs, limiting conditions and appropriate certifications.

Ronald Rahal

# Uniform Residential Appraisal Report File No. 20318fleet

Th	e purpose of this summa	rv appraisal report is t	to provide the lender	r/client with an accura	ate, and adequately sup	ported, opinion of the	market value	of the subject pr	roperty.

Freddie Mac Form 70 March 2005 UAD Version 9/2011

File No. 20318fleet

Lansing, Michigan 48909.	higan Department of Labor and Economic Growth, PO Box 30018,
Lansing, Michigan 40303.	
REPORT TYPE STATEMENT:	
This is an appraisal report.	
PRIOR SERVICES STATEMENT: I have performed no services, as the subject of this report within the three-year period immediately p	an appraiser or in any other capacity, regarding the property that is ecceding acceptance of this assignment.
COMPETENCY STATEMENT:	
The appraiser that completed this report confirms that they have ac	equate competency to complete appraisal assignments in subject's
market area.	
Clarification of Intended Use and Intended User:	
The Intended User of this appraisal report is the Lender/Client. The	Intended Use is to evaluate the property that is the subject of this
appraisal for a mortgage finance transaction, subject to the stated \$	
this appraisal report form, and Definition of Market Value. No additi- ADDITIONAL COMMENTS ON MARKET CONDITIONS:	onal Intended Users are identified by the appraiser.
Reasonable exposure time for subject is estimated at less than 180	days.
COMMENTS ON COMPARABLE BASEMENT SQUARE FOOTAG	
source basement square footages have been estimated by appraise estimated when unavailable through any public source. Comparable	
having 80% of total basement area finished and for those advertise	
finished area to be 50%. Finished areas are assumed to be recreate	on rooms unless otherwise indicated.

File No. 20318fleet

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

**SCOPE OF WORK:** The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

**INTENDED USE:** The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

**INTENDED USER:** The intended user of this appraisal report is the lender/client.

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale.

\*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

**STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS:** The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

#### APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

Freddie Mac Form 70 March 2005 UAD Version 9/2011 Produced using ACI software, 800.234.8727 www.aciweb.com Fannie Mae Form 1004 March 200

- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

#### SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

File No. 20318fleet

#### Condition Ratings and Definitions

C1 The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.\*

"Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2 The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

\*Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3 The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

\*Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4 The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

\*Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5 The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

\*Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6 The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

\*Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

#### **Quality Ratings and Definitions**

- Q1 Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.
- Q2 Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.
- Q3 Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.
- Q4 Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.
- Q5 Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.
- Q6 Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

# Definitions of Not Updated, Updated, and Remodeled

# Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

#### Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

#### Remodeled

 $Significant finish \ and/or \ structural\ changes\ have\ been\ made\ that\ increase\ utility\ and\ appeal\ through\ complete\ replacement\ and/or\ expansion.$ 

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

#### **Explanation of Bathroom Count**

The number of full and half baths is reported by separating the two values by a period. The full bath is represented to the left of the period. The half bath count is represented to the right of the period. Three-quarter baths are to be counted as a full bath in all cases. Quarter baths (baths that feature only toilet) are not to be included in the bathroom count.

#### **Neighborhood Market Conditions**

The subject is located in an area of flat to slightly rising property values. The market supply and demand is in line and supported by current asking prices similar, yet slightly higher than this same time a year ago. The increase of local employment stability, in the region as a whole, does demostrate consumer confidence reflected in the market causing shorter marketing times, however, directly dependant on lending rates remain low.

#### Comments on Sales Comparison

Comps have lowest net /gross % from all data previewed for this report that was relevant to the subject property valuation determination. The following data adjustments are derived via the matched pairs method of applying adjustments based on historical market data. Porch and patio adjustments not distinguished unless reflected in realtor discreation. Extra full bath adjustment is \$3000 and 1/2 \$2000 for main living area. Basement feature adjustments non living areas is less than GLA for same or similar feature. Basement finish is based on typical finish in the subject property market area. Style not adjusted for as all are equally marketable. Land area are similar to subject. The subject and comps are in C4 condition without recent updating to kitchen and baths among other aspect regarding improvement. In general Q ratings are all similar for the homes in the report and overall market area unless otherwise specified. Age adjustments not required as all homes have similar age and same effective age. Comps are the most recent sale, selling in the past 90-180 days, therefore these homes are given good consideration from all examined data. Comps all recent sales and bracket GLA, Condition, Quality, location within a mile in the same or located in a similar competing neighborhood.

#### **Final Reconciliation**

Adjustments to the comparables on the sales grid were calculated using quantitative data (paired sales) wherever possible. Some features of the subject requiring adjustment were determined using data accumulated from the appraiser's data base, peer discussions, education, and typical market reaction observed through the appraisers familiarity with the market. The comparable sales presented within this report are considered the best available to this appraiser at the time for comparison to the subject. Comparable sales information is based on MLS, builder sales records, and/or local government records. All comparable sales have been verified as closed by the MLS and government records unless otherwise noted. The sales utilized in this report are located within the same marketing area as the subject and are considered comparable in general features such as location, utility, quality of construction and property appeal. The comparables used are considered to be the best available and the most representative of the subject's surrounding market. The appraiser is aware of the lender specific guidelines.

Every effort has been made not only to remain compliant with those guidelines, but also to utilize sales that would be considered an equal substitution to the subject property. All relevant sales were carefully analyzed and the closed sales presented in the sales comparison approach to value were determined to be the best available and most representative of the subject. Concessions are typical within the subjects marketing area with the majority of sales reporting some type or amount of concession. Adjustments for typical concessions (from 1-6%) are not considered appropriate in the marketing area unless the concessions significantly increase the comparable's sale price beyond what is typically expected by market participants.

As stated in the signed certification page, adjustments for concessions when applicable are not made on a mechanical "dollar for dollar" basis. Rather, when applied, they are based on the market reaction to the concession as supported by matched pairs analysis and/or the appraiser's judgment. Due to the lack of relevant sales similar in condition to subject it perhaps was necessary to exceed the six month guideline and or mile distance for comparable selection. This may be due to the lack of relevant sales in similar condition as subject. All the comparables contributed to the final opinion of value. Appraiser reserves the right to alter the report after initial submission if the situation calls for it, regarding imprroving the quality of the report.

#### **Extra Comments**

Personal property was not included in the appraisal of this home attest that I reviewed my sketch and validated the bedroom and baths are consistent with what is report in the report. All patios and porches are included and labeled to be open, covered or enclosed. And all dimensions are included.

The photo requirements state that I provided the original photos for the Subject ,front,rear,sides and street Any physical deterioration if warranted. recent updates,remodeling renovation.All characteristics regarding value.

Comments regarding the use of digital equipment

Any and all users of this report are hereby notified that the photographs of the subject property and of the comparable sales were taken by the appraiser(s) using digital photographic equipment unless noted otherwise. The photographs are digitally reproduced and enhancements may have been made to provide greater clarity. The photos have not been altered so as to misrepresent the images presented. The appraiser may have utilized digital enhancement to make any or all of the photographic exhibits more legible upon printing by using software which permits the appraiser to correct for color and lighting problems. In no instance has the appraiser utilized techniques which would substantially alter the pictorial representation.

The appraisal may contain digitally reproduced signatures. The appraiser maintains a password protected signature capability in order to permit the transmission of appraisal files via the internet and various intranet facilities. It is the appraiser's belief that the digitally reproduced signatures comply with all pertinent Federal regulations. Any authorized user of this appraisal report may request verification of the authenticity of digitally reproduced signatures by contacting the appraiser in writing and providing a complete copy of the appraisal.

As per Fannie Mae and Uniform Standards of Professional appraisal Practice, the appraiser has driven by all comparables sales. The photographs of comparable sales may have been taken at this time or may be copies of photographs from the local multi-list service or the appraiser files. These procedures conform to USPAP compliance.

HIGHEST AND BEST USE

#### **ADDENDUM**

Borrower: Rudalev MI I	File No.:	20318fleet	
Property Address: 20318 Fleetwood Dr	Case No.:		
City: Harper Woods	State: MI	Zip: 48225-1642	
Lender: Colony American Finance			

The subject building improvements constitute significantly to the value of the subject property. Therefore, the highest and best use of the property is as improved. The present improvements do not necessarily represent the highest best use of the site "as if vacant." A highest and best use analysis of the site may result in a recommendation for a different size or style residence in order to maximize the site value. Such an analysis is beyond the scope of this appraisal of correction, consistent with local, state and national trends in surrounding market. The appraiser is aware of the lender specific guidelines. Every effort has been made not only to remain compliant with those guidelines, but also to utilize sales that would be considered an equal substitution to the subject property.

#### USPAP Compliance and Liability Alert-Scope of Work

At the request of the client, this appraisal report has been prepared in compliance with the Uniform Appraisal Dataset(UAD) from Fannie Mae and Freddie Mac. The UAD requires the appraiser to use standardized response that include specific formats, definitions, abbreviations, and acronym.

The appraiser attempted to obtain an adequate amount of information in the normal course of business regarding the subject and comparable properties. Some of the standardized responses required by the UAD, especially those in which the appraiser has not had the opportunity to verify personally or measure, could mistakenly imply greater precision and reliability in the data than is factually correct or typical in the normal course of business. Examples include condition and quality ratings as well as comparable sales and listing data. not every element of the subject property was viewable and comparable property data was generally obtained from third-party sources. Consequently, this information should be considered an "estimate" unless otherwise noted by the appraiser.

The photographs are digitally reproduced and enhancements may have been made to provide greater clarity. The photos have not been altered so as to misrepresent the images presented. The appraiser may have utilized digital enhancement to make any or all of the photographic exhibits more legible upon printing by using software which permits the appraiser to correct for color and lighting problems. In no instance has the appraiser utilized techniques which would substantially alter the pictorial representation.

#### Final Reconciliation

The market data approach was employed in this report. The market approach was given the most consideration because it reflects the actions of the typical buyer and seller in the real estate market. The income approach was considered, but not utilized, due to the limited cohesive rental market in the area.

As stated in the signed certification page, adjustments for concessions when applicable are not made on a mechanical "dollar" basis. Rather, when applied, they are based on the market reaction to the concession as supported by matched pairs analysis and/or the appraiser's judgment. The effective ages of the homes is similar to each other and an adjustment was not necessary. All the comparables contributed to the final opinion of value. The style of home varies in this neighborhood with no noted difference in the marketability of one over the other therefore it was not a primary market factor. All comps bracket subject GLA and age. These Comps' represent good substitutes for the subject. Comps are all very recent sales, with low est possible % adjustments. The comps were examined, with the more recent sales given most consideration, and the adjusted sales prices reconciled to obtain a value for the subject property.

#### Extra Comments

The predominant value reported in the neighborhood section is the median value of all homes within the defined neighborhood. The subject's value is reconciled based on the sales activity of comparable homes within the subject's sub-market; only those homes that would be considered by a particular market participant to meet their expectations. The subject's value is reconciled and different than the predominant value for the market due to a number of factors including itslan area, current age, design, quality of construction and condition. Although the subject's reconciled value is not equal to the predominant value for this defined neighborhood, sufficient similar homes are present within this area to support a value estimate for the subject. The subject is not considered over/under improved, but deviated for the mean, due to the subject property location and/or characteristics. This does not have a negative effect on marketability for the subject.

Title and Boundaries Appraiser takes no responsibility for matters of a legal nature that affects the title to the property nor is an opinion of title rendered. The value is given without regard to questions of title, boundaries, encumbrances or encroachments. We are not usually provided with information regarding title or legal description.

### Physical Deficiencies

Information reported in this appraisal about the condition of the property is based upon my inspection of the property and what was disclosed tome or what I was aware of. I am not a trained home inspector and therefore would not be aware of any conditions that were not apparent or disclosed to me. I asked the property owner to disclose to me any information they have about any physical deficiencies or adverse conditions might affect the livability, soundness or structural integrity of the property. Unless indicated in the report, none were disclosed to me.

#### Additional Information

Information was verified, when possible, through public records, multi-listing services, real estate agents and exterior inspection. No verification technique is 100% accurate but the appraiser has made the assumption that all data is accurate as reported.

From time to time the indicated sizes of the comparables shown in available sources such as Multi-List Services or listing sheets appears to be incorrect based on the appraisers professional experience. If the size used in the MLS sheet does not correlate with other known data, the appraiser may use other methods to determine the size of the comparables. These include assessors sheets, physical inspection and use of interior room measurements along with a multiplier to depict size

#### **ADDENDUM**

Borrower: Rudalev MI I	File No.:	20318fleet	
Property Address: 20318 Fleetwood Dr	Case No.:		
City: Harper Woods	State: MI	Zip: 48225-1642	
Lender: Colony American Finance			

based on exterior measurements. The deviation of comparable size froze published sizes only indicate an attempt at higher accuracy in the final report. However, there are many times the exact size and features found in comparables cannot be confirmed except by an exterior inspection from the street. We have used three or more comparables in this report to eliminate the limited data associated with any single comparable.

Subject property data was based on the physical inspection of the property interior and exterior .Additional data was compiled from public records.

It is presumed that whomever relies on this appraisal has clarified the owner/occupant issue through their own research methods.

The appraiser makes no warranties, either implied or directly, and is not responsible as to whom the occupant of the property is at the time of the appraisal.

The dimensions used are approximate calculations after measuring the exterior of the subject property.

THE APPRAISAL IS NOT AN ENGINEERING OR PROPERTY INSPECTION REPORT.

The predominate value and the appraised value are not the same , due to variance of homes characteristics within the neighborhood,however the subject is well with in the range of value for the area and not an over/under improvement.

#### Market Conditions Addendum to the Appraisal Report File No. 20318fleet

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009. Property Address 20318 Fleetwood Dr City Harper Woods State MI Zip Code **48225-1642** Borrower Rudalev MI I Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc Prior 7-12 Months Prior 4-6 Months Current - 3 Months Overall Trend Inventory Analysis X Stable Total # of Comparable Sales (Settled) Increasing Declining 9 4 1.33 Absorption Rate (Total Sales/Months) 1.50 Increasing X Stable Declining 0.67 Declining X Stable Increasing Total # of Comparable Active Listings 10 4 4 Declining Months of Housing Supply (Total Listings/Ab.Rate) 6.67 3.00 6.00 X Stable Increasing Median Sale & List Price, DOM, Sale/List % Prior 7-12 Months Prior 4-6 Months Current - 3 Months Overall Trend Declining Median Comparable Sale Price 70,000 72,098 63,750 Increasing X Stable Increasing Median Comparable Sales Days on Market 20 Declining X Stable 21 26 Increasing Median Comparable List Price 73,950 74,725 63,750 X Stable Declining Median Comparable Listings Days on Market Declining X Stable Increasing 31 25 32 Median Sale Price as % of List Price Increasing Declining 100.00% 97.76% 100.00% X Stable Declining Yes Seller-(developer, builder, etc.)paid financial assistance prevalent? X No X Stable Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). Seller concessions are not prevalent but are occasionally used. The amount of concession varies and is apparently more a function of buyers liquidity needs rather than any market factors. Concessions, when used generally are added back into the purchase price on approximately a one to one basis. X No If yes, explain (including the trends in listings and sales of foreclosed properties). Are foreclosure sales (REO sales) a factor in the market? Yes Cite data sources for above information. Statistical information was procured via Realcomp.II Limited. data is based on similar style homes with the same city and immediate comparable neighborhood area or a similar competing neighborhood, using same school district, unless specified otherwise. Data is extensive and fundamental. Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions. A study of MLS statistics is the source of data for this addendum. A much more in depth historical search is required to determine sales trends concerning cyclical and relevant data assessments taking into account the small sample size. Furthermore, seasonal fluctuation is not factored into the trends If the subject is a unit in a condominium or cooperative project, complete the following: Project Name: Prior 7-12 Months Prior 4-6 Months Subject Project Data Current - 3 Months Overall Trend Total # of Comparable Sales (Settled) Increasing Stable Declining Absorption Rate (Total Sales/Months) Stable Declining Increasing Total # of Active Comparable Listings Declining Stable Months of Unit Supply (Total Listings/Ab. Rate) Increasing Declining Stable Are foreclosure sales (REO sales) a factor in the project? No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties. Summarize the above trends and address the impact on the subject unit and project.
