Summary of Sales Comparison Approach ALL SALES ARE INDICATIVE OF SUBJECTS VALUE AFTER ADJUSTMENTS. SUBJECT IS COMPATIBLE WITH SURROUNDING HOMES IN AREA. EVERY EFFORT HAS BEEN MADE TO STRICTLY ADHERE TO THE LENDERS GUIDELINES AND TO THOSE FOR FEDERALLY RELATED TRANSACTIONS. HOWEVER, DUE TO THE NATURE OF THE MARKET IT IS NOT ALWAYS POSSIBLE TO FIND COMPARABLE SALES WITHIN A DATA POOL FOR A PARTICULAR NEIGHBORHOOD THAT MEETS ALL OF THESE GUIDELINES. SQUARE FOOTAGE ADJUSTMENTS ARE \$500 FOR EVERY 50.0' IN DIFFERENCE IN LIVING SPACE. PORCH/PATIO/DECK ADJUSTMENTS WERE \$2,000. ALL OTHER ADJUSTMENTS ARE AS NOTED ON APPRAISAL.

Indicated Value by Sales Comparison Approach \$ 106,000

Indicated Value by: Sales Comparison Approach \$ 106,000 Cost Approach (if developed) \$ 106,194 Income Approach (if developed) \$

THE SALES COMPARISON APPROACH IS GIVEN THE MOST WEIGHT BECAUSE IT BEST INDICATES THE ACTIONS OF BUYER AND SELLERS COST APPROACH CONSIDERED BUT NOT AS RELIABLE AS SALES APPROACH AND INCOME APPROACH CONSIDERED BUT NOT AS RELIABLE AS SALES APPROACH

This appraisal is made ☒ "as is", ☐ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: THE APPRAISAL WAS

CONDUCTED ON A AS-IS BASIS.

Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is \$ 106,000 ,as of 06/09/2017 , which is the date of inspection and the effective date of this appraisal.

SEE COMMENTS OF SUMMARY OF SALES COMPARISON SEARCH.

Unless otherwise noted, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment."

A reasonable exposure time for the subject property is 60 days."

APPRaiser USED PAIRED SALES ANALYSIS AND SELLERS AND BUYERS REACTIONS TO CERTAIN AMENITIES TO HELP DETERMINE ADJUSTMENTS FOR THIS APPRAISAL.

Age adjustments: Differences in age are generally not adjusted for as physical age alone is not a true indicator of market reactions; the market pays greater attention to condition, updates, and overall appeal. If a home is "effectively" and substantially older or newer than the subject, or if the market appears to be placing great weight on age, then adjustments are warranted

"THE APPRAISER HAS ATTEMPTED TO DISPLAY COMPARABLE SALES THAT CLOSED WITHIN THE PAST 90 DAYS TO 1 YEAR, WITHIN 2 MILE, BRACKETING GLA BY 600 TO 1,600 SQ. FT. AND ROOM COUNT 3 TO 5 BEDROOMS, AND SIMILAR IN STYLE OF LIVING TO THE SUBJECT BEING A BI-LEVEL, TRI-LEVEL, QUAD-LEVEL HOME. ."

THE HIGHEST AND BEST USE FOR THIS APPRAISAL IS RESIDENTIAL USE DUE TO ZONING AND LOCATION OF PROPERTY.

MOST OF THE WEIGHT IN THIS APPRAISAL GOES TO COMPARABLE 3 DUE TO SIMILAR GLA TO THE SUBJECT PROPERTY .

NO SITE ADJUSTMENTS WERE GIVEN DUE TO THE FACT THAT ALL COMPARABLE PROPERTY SITE SIZES ARE LESS THAN 1 ACRE AND STANDARD FOR THE MARKET AREA.

COMPARABLE 2 AND 3 TIME OF SALE EXCEEDED FANNIE MAE GUIDELINES YET USED IN APPRAISAL DUE TO SQUARE FOOTAGE, YEAR BUILT, AND LOCATION.

APPRaiser TRIED USING HOMES OF THE SAME GLA AND CAC UNITS AS MUCH AS POSSIBLE. THIS IS WHY EXACT BRACKETING WAS NOT POSSIBLE. THESE ARE THE MOST RECENT AND COMPARABLE SALES AT TIME OF APPRAISAL THAT APPRAISER COULD FIND IN THE MARKET AREA.

ACROSS THE BOARD ADJUSTMENTS WERE USED IN THIS APPRAISAL YET ARE NOT UNCOMMON FOR THE MARKET PLACE DUE TO THE FACT NOT ALL AMENITIES ARE GOING TO BE SIMILAR TO THE SUBJECT AND COMARABLE PROPERTIES.

ALL THE COMPARABLE EXCEEDED FANNIE MAE GLA ADJUSTMENT GUIDE LINES BY 20% YET USED IN APPRAISAL DUE TO LOCATION AND YEAR BUILT AND BEING BEING A BI-LEVEL, TRI-LEVEL, QUAD-LEVEL HOME.

Uniform Residential Appraisal Report

ANS-221367
File # ANS-221367

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered “new” if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner’s site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner’s site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from “stock” standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is ‘Not Updated’ may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:
3.2 indicates three full baths and two half baths.

THE SCOPE OF WORK FOR THIS APPRAISAL IS THE AS-IS VALUE AND MARKET VALUE OF THE SUBJECT PROPERTIES IMMEDIATE MARKET AREA.

THE INTENDED USERS OF THIS REPORT ARE THE MORTGAGE COMPANY LISTED IN THIS APPRAISAL, ITS ASIGNEES AND ANY FEDERALLY RELATED ENTITIES RELATED TO THIS TRANSACTION. THIS APPRAISAL REPORT IS AN APPRAISAL INTENDED FOR GETTING A CONVENTIONAL MORTGAGE.

THE EFFECTIVE DATE IN THIS REPORT IS THE SAME DAY THE APPRAISER INSPECTED THE PROPERTY.

TAXES WERE COMPUTED BY USING ASSESSORS DATA.

APPRAISER USED INFORMATION FROM CITY ASSESSORS OFFICE FOR COMPARABLES AND SUBJECT ALONG WITH PERSONAL INSPECTION AND M.L.S. DATA.

THE DEPARTMENT OF ENERGY,LABOR, AND ECONOMIC GROWTH IS THE PLACE THAT REGULATES APPRAISER'S WORK PERFORMANCE AND ETHICS. FOR ANY PROBLEMS WRITE TO THEM.

Appraisers are required to be licensed in the State of Michigan and are regulated by the Department of Licensing and Regulatory Affairs. PO Box 30018, Lansing Michigan, 48909

The city or county the subject property is located in does not provide tax document numbers (book and page, liber, or folio number) for the sold comparables or subject property.

PER UNDERWITERS REQUEST APPRAISER IS ONLY MAKING ADJUSTMENTS ON UNFINISHED, PARTIAL FINISHED, FINISHED AND WALK/OUT BASEMENT AREAS FOR BELOW AREA ADJUSTMENTS. JUST BECAUSE THE LOWER LEVEL HAS LARGER BELOW GRADE AREA DOES NOT MAKE IT MORE VALUABLE. VIA PAIRED SALES ANALYSIS APPRAISER FOUND THAT PARTIAL FINISHED, FINISHED AND WALK/OUT BASEMENT BRING MORE VALUE THAN A LARGER UNFINISHED BELOW GRADE AREA.

Per Fannie Mae Guidelines XI 405.05 and ANSI Standards Z765: The above grade finished square footage of a house is the sum of finished areas on levels that are entirely above grade. The below-grade finished square footage of a house is the sum of finished areas on levels that are wholly or partly below grade. Any level that is partially below grade makes the entire area ineligible for being determined in GLA." As a result the subject's lower level (Family room, Bedroom, Half Bathroom) was given credit/value within the "Basement And Finished Rooms Below Grade" area of the sale's comparison grid, the unfinished laundry/Mechanical/Storage area of the lower level was not given value as finished living space of the Lower level, as it is unfinished.

Due to the subject's somewhat considered odd floorplan, the appraiser ONLY used comparable sale's of similar design/style which have area's below grade of overall similar interior quality/grade of construction as the above grade area's of the home. The appraiser only considered Tri-level, Quad-level and Bi-level style/design as considered comparable sale's as they all have a similar below grade area of living space with the same quality/grade of construction present throughout as the above grade area's of the home, similar to the subject property.

THE SUBJECT PROPERTY CAME BELOW THE UNADJUSTED COMPARABLE SALES PRICES DUE TO THE SMALLER SIZE OF THE SUBJECT PROPERTY YET USED IN APPRAISAL DUE TO BEING A BI-LEVEL, TRI-LEVEL, QUAD-LEVEL HOME AND SIMILAR IN DESIGN AND APPEAL AS THE SUBJECT PROPERTY.

Instructions:

The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.
