Why vote for me?

Over the past three years, I have been concerned about the direction that Pinehurst seemed to be headed as a result of apparent outside influences. To acquire a better understanding of the issues that are impacting Pinehurst and Moore County I have, for the past two years, attended two to five meetings per month. The meetings attended include: Neighborhood Advisory, Historical Preservation, Planning and Development, Village Council and Moore County Commission. As a result, I have gained an in-depth knowledge of how these groups are attempting to resolve these issues.

My vision of Pinehurst in 20 years

To quote Daniel Wester: "The contest for ages has been to rescue liberty from the grasp of executive power". My vision for Pinehurst is that WE must focus on maintaining the values and key elements that make Pinehurst an extraordinary place to live. The key elements include the beauty of the pine trees; the golf environment; the history, culture and values inherent in the original intentions of the community's founders. The very elements that make Pinehurst a desirable place to live result in inevitable growth. Our concern will be to find a balance between maintaining the desirability, the small community values and managing that growth without losing control to the power and possible greed of outside influences. My campaign statement is "US for All". That applies both now and for the future.

All About Collett Kolinski

Born in Oak Park IL and raised in a suburb of Chicago, I attended Western Michigan University and obtained a BS in Education in 1969, with a major in Fine Arts and a minor in Science. Additional education includes attendance at the University of Wisconsin, completing all but the final semester for an MBA. In 1984, I also received a Certification for Residential Real Estate Appraisal in the state of Kansas. Married to James Kolinski for 48 years, we have two children and four grandchildren. As a family, we have moved thirteen times and lived in eight states. I have taught full time and been a substitute teacher in most of the eight states including Moore County NC. My husband and I have travelled extensively in North America, Europe, South America, Asia and Oceania. I assisted him in his responsibilities for establishing and maintaining strong relationships with his company suppliers, distributors, industry organizations, government agencies and customers for a wide range of products. Our connection to NC began 30 years ago when a career opportunity brought us to Pinehurst. At that time, we built our current residence in Pinehurst. Because of our love of Pinehurst and Moore county, we maintained our residence here, despite six additional career moves to other states. We retired full time to Pinehurst in 2004. Outside interests include obtaining a private pilot's license at Moore County NC airport in 1990. I maintain an intensive exercise program at First Health.
