# SAMARANG JAPAN VALUE - Class C – Capitalization (ISIN: LU1759237057)

## a sub-fund of SAMARANG UCITS

Management Company: Samarang Asset Management S.A.

### Objectives and investment policy

The objective of the sub-fund is to obtain a high investment return over time by investing essentially in equities listed on the Japanese stock markets, whose underlying businesses are expected to generate a combination of capital growth and income.

The portfolio of the sub-fund will comprise a focused selection of Japanese listed or orientated stocks.

The sub-fund's equity exposure must be essentially in listed Japanese stocks.

The sub-fund may invest on an ancillary basis in equities of other developed or emerging markets or convertible bonds.

The sub-fund may use financial derivative instruments for investment and/or hedging purposes, such as but not limited to futures, options, warrants and forwards.

Recommendation: this sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Shareholders may redeem shares on demand, on a weekly basis (Friday).

Distribution shares: any income generated by the sub-fund for this class and category is distributed.

Please note that transaction costs may have material impact on performance.

Historical data used may not be a reliable indication of the future risk profile of the sub-fund.

This category is not guaranteed to remain unchanged and may shift over time, depending on market conditions, or opportunities.

The lowest category does not mean a risk-free investment.

This indicator is based on the historical volatility of the reference portfolio over the past 5 years and places the sub-fund in this category. This sub-fund was categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high.

#### The sub-fund is subject to the following risks:

**Liquidity risk:** securities in the sub-fund may become more illiquid during extreme market conditions and may be difficult for shareholders to collect redemption proceeds in a timely manner.

**Use of derivatives:** derivatives may be used for investment and/or hedging purposes.

**Currency risk:** the risk that an investment's value will be affected by changes in exchange rates.

**Equity risk:** The value of equities and equity-related securities can be affected by daily stock market movements.

Market risk, including emerging and less developed markets.
