Volatility Forecasting and Management

While forecasting market returns over the short-term is often viewed as a fool's errand, this presentation will go through the academic grounding on why forecasting volatility in markets is both possible and highly desirable, and will talk through its practical implementation in modern portfolios, including the benefits and the trade-offs.

Nick Samouilhan, Solution Strategist Multi Asset Division, T. Rowe Price

Defensive Strategies in Volatile Markets

Marlies van Boven, Managing Director Research & Analytics, FTSE Russell

10.35 Coffee / Tea

11.05 *Session 2 – Emerging Market Debt*
Moderator: **Evalinde Eelens**, Executive Board Member, BPF Particuliere Beveiliging

Emerging Market Corporate Debt: the last Hidden Gem?

Often overlooked by investors, Emerging Market Corporate Debt is one of the fastest growing areas of global fixed income. A closer look at this misunderstood and underappreciated asset class can reveal the potential for portfolio diversification benefits by investing in high quality companies with attractive yields and strong risk-adjusted returns.

Richard Adams, Senior Investment Director, American Century

Why it Might be Time to Reconsider an Active Allocation in Emerging Market Debt

The growth dynamics and strengthening economic fundamentals of many emerging market (EM) countries are attractive to investors seeking growth, income and diversification. In our presentation, we discuss why investors should reconsider an active allocation to EMD. We explain how an active allocation enables them to capture different drivers of return and manage risk, and provides a more deliberate allocation of capital, which could mitigate unintended consequences of index construction.

Jeremy J.W. Cunningham, Investment Director, Fixed Income, Capital Group

12.20 Drinks and Lunch

13.40 *Session 3 – Considering other Investment Strategies*
Moderator: **Paul van Gent**, Chief Investment Officer, Corestone Investment Managers

Global Small Cap Equities

Global Smaller Companies account for c.70% of the global equity opportunity set, but many pension funds have no exposure to this exciting area of the market. This talk will address why the asset class is worthy of consideration within a broader portfolio and outline some of the key benefits a bottom-up approach can bring.

Graham McCraw, Senior Investment Specialist, Aberdeen Standard Investments

Listed Infrastructure Resilience in Uncertain Times

Listed infrastructure acts as a diversifier, having lower beta and correlation to other assets. The underlying return streams of infrastructure companies (essential services, backed by hard assets with a degree of price certainty) are strongly linked to the regulatory or contractual frameworks in place, rather than typical drivers of equity and bond returns. In uncertain times infrastructure can provide a source of income with less correlation to traditional assets.

David Bentley, Founding Partner, ATLAS Infrastructure

14.55 Coffee / Tea

15.15 *Session 4 – Academic & Investor Perspectives*
Moderator: tbc

Keynote Address: Pension Funds' Interconnections & Herding Behaviour in Alternative Asset Allocations

This new research study of 191 pensions looks at how their interconnections (through trustees, actuaries or dominant asset managers) is leading to herding behaviour in private market asset allocation.

Dirk Broeders, Senior Economist, DNB, Professor of Finance, Maastricht University

Building ESG Proprietary Benchmarks: Case study from PWRI

This case study will examine how Pensioenfondsen Werk en (re) Integratie (PWRI) developed a proprietary ESG benchmark to achieve their own ESG objectives and how they aim to move to fully integrate ESG across the portfolio.

Xander den Uyl, Vice-Chairman, PWRI

16.30 Drinks reception followed by Close of Conference

Specialist Pension Services: SPS Conferences is a small, specialist company focusing entirely on providing essential, high quality and timely investment information to Large Pension Funds and their Advisors via a series of one day conferences in London and in key locations throughout Europe. SPS Conferences is the sister organisation of the EPFIF (European Pension Fund Investment Forum) and has been running investment conferences for the Pension Fund community since 1993. A wide range of investment and related topics are covered, including Alternative Investing, Bonds, Equities, Property, Absolute Return, Private Equity, Risk Management and DC Issues. Furthermore, because we know that you prefer to be educated rather than sold to, we strongly encourage our speakers to focus on giving educational speeches. An Advisory Committee of Pension Funds has been set up to help us keep our conferences relevant to your needs year on year, as we understand that there is a preference to be amongst peers at conferences rather than be outnumbered by Marketing Executives from Service Providers and so we have a very strict admittance policy biased heavily towards Large Pension Funds. We aim to have more pension funds in the room than service providers. SPS Conferences understand that delegates appreciate generous question and answer sessions during the conference and we also provide a number of opportunities to talk to your peers and the speakers. This includes tea/coffee break(s), a full three course sit down lunch and a drinks reception at the end of the day. When you put all this together, you get conferences where you can learn essential, timely information to assist you with all areas of pension fund investment management, in a friendly, relaxed, atmosphere amongst your peers. please visit our website: www.spsconferences.com for an update of this conference and details of the other specialist pension and investment conferences we organise.
