Brief profile

Vivonio is a growing and expanding group of leading European furniture manufacturers. Together with the subsidiaries MAJA, Staud, Leuwico, Noteborn, fm Büromöbel and KA Interiør, Vivonio generates an annual turnover of approximately 400 million euros and employs 1,700 members of staff. The aim of the holding company is to further develop the companies under the umbrella of Vivonio over the long term. Synergies are created for the companies within the group by forming for instance purchasing alliances and collaborating on international expansion. Thanks to their product portfolios, the companies within the Vivonio Group have evolved into extremely successful suppliers within their respective market segments.
