

The **Colenta 140 and 160 PCB 90 Film processor** options are the ideal choice to support the large format film plotter options available from **First EIE**.

The choice of the **Colenta 140 PCB 90 or 160 PCB 90 Film Processor** is subject to the maximum film size in use

Colenta offer good and economical solutions for the **RP1600** series of plotters produced by **First EIE** , all can be discussed during pre-installation planning.

Within this folder there are a number of pictures and 3D drawings demonstrating an actual working setup and produced by **Colenta for the RP1600 series**
