Silent Disco

HIRE COMPANY

Thank you for showing an interest in a silent disco hire service from the Silent Disco Hire Company, part of the I Do Festivals group of companies. Here you will find a comprehensive list of our services and prices.

A silent disco is the perfect way to keep your party going late into the night. As no actual music is being transmitted via speakers there is no noise pollution, meaning you can keep your celebration going longer without upsetting any neighbours or local authorities.

What is a silent disco?

A silent disco is exactly the same as a regular disco except there is no amplified music. Users listen to music via wireless headphones which have the capability of cycling between three channels of audio, meaning you can seamlessly choose between three different tracks at any one time. A DJ can control the three channels of audio or you can load up pre made playlists via a laptop or iPod.

The Perfect Solution to Noise Restrictions

With a silent disco hire from The Silent Disco Company, you can be sure to keep your celebrations going late into the night. With no noise pollution, as no actual music is being transmitted via speakers, a silent disco is the perfect way to keep your party going longer.

Please note, most licenses for outdoor events will have a strict curfew of 11pm for amplified music. A silent disco will allow you to continue your celebrations until your later bar license allows. (generally 02:00am).

Prices

Hire only service

A dry hire service. We supply all equipment and detailed instructions on operation. You set up and operate the system with either your DJ, playlists or our preloaded iPods.
