

# LM-D

SISMA / DENTAL / LASER SYSTEMS / LASER WELDING

LM-D, manual laser welding system.

**Stable**

LM-D incorporates the Smart Spot technology for a repeatable welding process ensuring a wide depth of field and a stable laser firing already from the first pulses.

**Comfortable**

The new ergonomic design and low noise level ensure total operator comfort. The ECO function deactivates specific system components during periods of inactivity thereby ensuring reduced consumption.

**Connected**

LM-D features USB and Ethernet connectivity for welding recipes download/upload and software and firmware update. The LM-D machine can also be controlled remotely via smartphone, tablet or computer.
