

Technical Data Sheet

Leveling Agent

Substrate wetting additive

Main Characteristics

- designed for water-based systems
- improves wetting of various substrates
- no foam
- with additional flow promotion
- good recoatability, overprintability
- silicone-free
- solvent-free
- Recommended dosage – up to 2%

Specification

- | | |
|-----------------------------|--------------------|
| • refractive index at 25 °C | 1.440 - 1.450 |
| • density at 25 °C | 0.94 - 0.98 g/ml |
| • hydroxyl value | 120 - 140 mg KOH/g |
| • acid number | < 0.15 mg KOH/g |
| • water content | < 0.15 % |

Storage

- Store in a covered and ventilated area
- Max 12 Months
