#### **CORONA GRANTS UPDATE**

- All eligible businesses: small, medium and large can continue to apply for the "Participation in permanent expenses" grants, on a bi-monthly basis for the periods September-October and November-December until June 2021. The last date to apply for September-October is February 15<sup>th</sup> and for November-December's grant is April 15<sup>th</sup>.
- The grants for employees who are also controlling shareholders (Ba'ale shlita) of their companies function in a similar fashion to the grants for businesses as above, except that a decrease in turnover of 40% or more is required. The same expiry dates are in effect.
- Round 4 of the Corona grants is the round that provides incentives for employers to rehire staff who were previously put on "Chalat" (unpaid leave) during March-April of last year (2020). Employers may also be entitled to benefits for hiring new staff. Note that the final date to submit applications for these grants is January 31st.
- Employees who remain on unpaid leave (chalat) will receive unemployment benefits up until June 2021
- Employees over the age of 67 who are on unpaid leave (chalat) and who receive a pension of less than NIS 5,000 per month may apply for a "Histaglut" (acclimatization) grant through Bituach Leumi. This will provide a grant of 2,000-4,000 NIS monthly until June 2021.
- Businesses and Non-profits may now also be eligible for large Arnona discounts (up to 95%). In order to be eligible, the turnover must have decreased by 60% compared to the parallel period in 2019. #### 10-Year Tax "Holiday" (Exemption Period) In The Courts

#### **Highlights of recent court rulings:**

- Income from employment or business

   where the taxpayer is active both in

   Israel and abroad is taxable per the days actually worked in Israel with the calculation done on proportionate basis. (Viz. income earned in Israel based on days worked in Israel as a percentage of total work days in the year).
- However, income from business assets held or developed abroad, prior to becoming a resident of Israel, may indeed be exempt. Such income may include commissions, share of profits, royalties, and such like. The parameters for tax planning require cautious examination.
- Whilst a new resident\oleh\returning resident is specifically exempt from reporting on foreign assets and income, the court held that such exemption is not applicable where criminal issues may be involved.
