Blackwall Europe L/S Fund – Monthly Factsheet April 2018

Monthly Return: -2.22%* Year to Date Return: -2.22%* Assets Under Management: EUR216.8m*

Overview

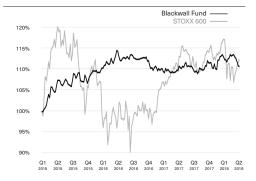

- The Blackwall Europe L/S Fund follows a fundamental, value-based long/short equity strategy. Investments are made in a limited number of fundamentally mispriced European stocks with a focus on mid-sized, underresearched companies.
- Unconventional thinking is key to achieving superior returns. We only invest in companies which we can fully understand with an ideal investment horizon of about 3-5 years. Every single idea has to have its own individual merits.
- Managing and understanding risk is a fundamental aspect of the investment strategy. Risk is further mitigated by adopting zero economic leverage and applying a margin of safety.
- · Portfolio Management is performed by Blackwall Capital Investment AG (Zug / Switzerland), which was founded by Thomas Karlovits, the former Head of European Equity Research at Kepler Cheuvreux. The Fund is hosted on the Trium UCITS Platform plc domiciled in Ireland.
