\*Pier registration decisions are based on the criteria outlined in Wis. Stats. 30.12 (1k). All other information in this letter was provided by the applicant and is used to further describe the structure and its use. Please be aware that having an accepted registration does not authorize the placement of a pier in a manner which encroaches or infringes on the riparian rights of another riparian landowner. In addition registration under 30.12 (1k) allows only for the repair and reconfiguration of the registered structure (if you reconfigure you must contact the Department to update your registration with the most current configuration) but specifically does not allow for the structure to be enlarged. Please note that the Department reserves the right to revoke any accepted registration under ss. 227.51(3) if new information indicates that the standards in Wis. Stats. 30.12(1k) have not been met.
