Plus Top-Up/Excess Layer insurers who may also include the above and others yet tbc

Notes:

- All insurers can only be accessed 'via a broker', apart from Travelers to whom you can also access directly
- Each insurer has its own Underwriting Criteria, Limits and/or Exclusions on certain areas of Legal work, number of Partners, Turnover and Capacity, so check at the outset
- Some insurers only consider 4+ partner/director organisations, again check which
- Not all Brokers have **direct access** to some insurers and have to go via another Broker or MGA, so clarify 'PII Market Access' and negotiating ability
- Many 'local brokers' do not have a lot of PII expertise and rely on market access and knowledge via a National, Regional or other Lloyd's Broker (For example, 1 of the Big 8)
- Full PII Forms, as opposed to 'Short Renewal Forms', are broadly accepted by the majority of insurers but many insurers have specific questionnaires of their own regarding Conveyancing, Personal Injury, Financial Services, Cyber Security, Covid-19 Protocols etc, so always check with your PII intermediary before completing your complete PII Presentation
- Finally, as well as making sure you submit to market as early as possible (yes, 2 months before renewal is recommended), ensure you obtain 'up-to-date' Claims Summaries from your current and previous insurers going back at least 6, and ideally 10 years
